Cultures are internally affected by both forces encouraging change and forces resisting change. These forces are related to both social structures and natural events, and are involved in the perpetuation of cultural ideas and practices within current structures, which themselves are subject to change. ( See structuration.). Social conflict and the development of technologies can produce ...

The diversity in many classrooms provides a starting point for children to begin to understand and value the many distinct cultures of the world. What better way to do that than to feature a winter unit on light festivals from around the world. Teach your students about the cultural traditions in France, Sweden, Thailand, Philippines, India, Egypt, Holland, and Mexico.

The Two Cultures is the first part of an influential 1959 Rede Lecture by British scientist and novelist C. P. Snow. Its thesis was that "the intellectual life of the whole of western society" was split into the titular two cultures â€” namely the sciences and the humanities â€” and that this was a major hindrance to solving the world's problems.. The Two Cultures and the Scientific Revolution ...
