Dams and Development: Transnational Struggles for Water

Projected to generate thousands of megawatts of power, irrigate millions of hectares of land, and supply drinking water to hundreds of villages, India's Narmada Projects represent a promise for plenty to its proponents. If completed, these projects would undoubtedly constitute the largest river ...

Food and water: dams, development, transnational struggles

Dams and Development. Big dams built for irrigation, power, water supply, and other purposes were among the most potent symbols of economic development for much of the twentieth century. ... Sanjeev Khagram traces changes in our ideas of what constitutes appropriate development through the shifting transnational dynamics of big dam construction ...

Dams and Development, Transnational Struggles for Water

Following the success of the Hoover Dam and the Tennessee Valley complex of dams, more than 1,000 large dams (at least 15 meters tall) were constructed each year during the mid-1960s. Since then, there has been a dramatic decline in dam construction, to around 200 a year. ... Dams and Development: Transnational Struggles for Water and Power. by ...

Dams and Development: Transnational Struggles for Water

Big dams built for irrigation, power, water supply, and other purposes were among the most potent symbols of economic development for much of the twentieth century. Of late they have become a lightning rod for challenges to this vision of development as something planned by elites with scant regard ...
