2 Rev: June 1998 A second property that results by forming a composite such as FRP is that the material is now heterogeneous. That is, its composition varies as you move from point to point through the material.

### **FIBERGLASS REINFORCED PLASTIC (FRP) PIPING SYSTEMS**

Fibre-reinforced plastic (FRP) (also called fiber-reinforced polymer, or fiber-reinforced plastic) is a composite material made of a polymer matrix reinforced with fibres. The fibres are usually glass (in fibreglass), carbon (in carbon-fiber-reinforced polymer), aramid, or basalt. Rarely, other fibres such as paper, wood, or asbestos have been used. The polymer is usually an epoxy, vinyl ester ...

Fibergrate is the leading manufacturer of fiberglass reinforced plastic (FRP) solutions for industrial and commercial use globally.

### **Fibergrate Composite Structures**

A sandwich-structured composite is a special class of composite materials that is fabricated by attaching two thin but stiff skins to a lightweight but thick core. The core material is normally low strength material, but its higher thickness provides the sandwich composite with high bending stiffness with overall low density.. Open- and closed-cell-structured foams like polyethersulfone ...

December 2004 MATERIALS PERFORMANCE 5 third party "expert" to perform design and QC functions. These functions are built-in requirements for ASME RTP-1.

### **The ASME Standard - Industrial Fiberglass Specialties, Inc.**

We offer a full range of FRP products including gratings, railings, ladders, stairs, plates and work platforms. In addition to our standard FRP stair solutions and structural products, we provide products with resin formulations engineered for specific corrosion, safety and strength requirements in a variety of custom shapes and colors.

Products. On time delivery and product reliability are critical to the success of our customers'™ operations. RPS manufactures a broad range of corrosion resistant composite pipe systems and equipment. Detailed engineering specifications and work instructions, a trained, skilled, and experienced work force, and a robust and proactive Quality Assurance Program\* ensure customers get the ...
