The following question and reply are posted at The Mother Earth News website: Question: My wife and I are very interested in using compressed earth block (CEB) building techniques for the homestead we are planning in northeast Georgia. I know there are currently several manufacturers of CEB making machines, but wondered if the original CINVA Ram was still available.

Earthbag construction is an inexpensive method using mostly local soil to create structures which are both strong and can be quickly built.. It is a natural building technique developed from historic military bunker construction techniques and temporary flood-control dike building methods. The technique requires very basic construction materials: sturdy sacks filled with organic material ...
