Module Description - MST210 - Mathematical methods, models

mathematics (MS221) and Mathematical methods, models and modelling (MST210). It assumes that you have studied MS221 and that you now want to progress to MST210. The contents of this bridging material are the topics relevant to MST210 that are covered in Essential mathematics 2 (MST125) but not covered in MS221. When

models and learn the methods of solution. This module covers classical mechanical models as well as some non-mechanical models such as population dynamics; and methods including vector algebra, differential equations, calculus (including several variables and vector calculus), matrices, methods for three-dimensional problems, and numerical methods.
