Models of the Universe are described and classified into three major categories: Historic, Expanding, and Cellular. It is shown that all expanding universe models violate the cosmic edge and containment principle. The multi-millennium conflict between the two major world views --the changing dynamic universe and the unchanging stable universe-- is highlighted.

Mike, your comments are very clear to me and I believe you're on the right track with your questions and speculation. My current thoughts are that this reality is rapidly approaching something with steep challenges that we don't necessarily recognize (yet), and to those with more insights than the public generally have reality-shifting (some variation of it) looks like the best Plan B.
